FERNANDINA, FLORIDA

WHOLESALE LIST

CAMELLIAS & AZALEAS

1939-1940

Our offerings in Camellias in Specimin stock of 30"-36" and Up, are stock bought by us of other nurseries, these plants have been conditioned, are clean, healthy, full of flower buds, danger of loosing plants has been eliminated. Prices on these specimins are higher than most offerings in this size, due to the manner in which we handle them. Many buyers prefer to pay this additional charge for this service.

No loss of plants, immediate income, continued steady production with our conditioned Camellias.

Our propagating department is most complete. We offer Azaleas Bed Grown under glass, once transplanted, branched for spring delivery.

Camellia Japonica and Camellia Sasanqua from 2½" Pots, rooted in early summer, potted in late summer, carried under glass, well established, ready to shift in spring.

Our Lath House stock of Camellias and Azaleas are of splendid quality, we have our entire nursery under irrigation. We prune our stock for shapely development, we transplant our stock every 12 or 18 months which insures a splendid root system. Our stock is sprayed regularly with Volk and Bordeaux, eliminating Scale and fungus.

For listings of varieties and descriptions see our regular retail catalogue.
